

Greetings,

You are receiving this email because you have previously expressed interest in Meadow Vista Protection and the asphalt plant issue.

There is a critical Placer County Board of Supervisors Public Hearing that we all need to attend. A complete agenda can be found at this link:

http://www.placer.ca.gov/upload/bos/cob/documents/sumarchv/071107A/bosa_071107.htm

WHEN: WEDNESDAY, NOVEMBER 7, 2007, 1:30PM
WHERE: PLANNING COMMISSION HEARING ROOM
3091 COUNTY CENTER DRIVE, AUBURN CA 95603
(NEW BUILDING)

<http://www.placer.ca.gov/Home/Maps/DeWitt/3091CountyCenterDr.aspx>

SUBJECT: APPEAL OF PLANNING DIRECTOR'S DETERMINATION - "CHEVREAUX AGGREGATES, INC." (LDA-786)

Please attend this meeting and state your opinion! It is extremely important that the Board of Supervisors hear ALL opposition to this permit, including air and water quality issues, health impacts, traffic congestion, noise and all other environmental impact concerns.

PLEASE SUBMIT ALL DOCUMENTS TO THE BOARD OF SUPERVISORS BY TUESDAY, 1:30PM. <http://www.placer.ca.gov/BOS.aspx>

Please contact other people who may be interested in this issue.

The asphalt plant in Meadow Vista is moving forward unimpeded with the county's support. There is no permit process that will take place. The county is honoring the 1972 permit (which was approved before all of the health standards and current permit processes were put in place). There has never been an environmental review of the project impact to the region. The county is ignoring its own rules by claiming that this permit is still valid. The permit has only been used once in 30 years, and by all county rules and guidelines it

should have lapsed, requiring a new permit process with all of the associated environmental reviews.

This plant will be used to bid on Teichert-like projects for CALTRANS where they would be running trucks of hot asphalt day and night with all the associated production impacts to the community. The plant will negatively impact our quality of life as well as our air and water quality and property values in the region.

This public hearing on Wednesday at 1:30PM is where the Board of Supervisors will decide an appeal of a May 18th determination by the planning director for LDA-786 stating that it is valid and will never lapse. The appeal seeks to void this determination.

If you want to learn more... the MVP web site offers dozens of documents, photos and links to news articles.
